ADDITIONAL APPLICATION RESPONSE DETAILS

CCIDA Inducement Application

3139 W State Street, Alleghany, NY

Question I-G: 9154 Group, LLC is a real estate holding company affiliated with Ellicott Development Company (EDC). EDC is well qualified to undertake the re-development of 3139 W. State Street in Alleghany, NY, given its extensive experience in real estate development, management and leasing including a wide variety of office, retail, hospitality, multi-family and mixed-use projects.

EDC, with its 500+ employees, is a multi-faceted, fully integrated firm with the "In-House" capacity to provide legal, administrative, financial, management, accounting, development, site selection, site assemblage, architectural design and drafting services, construction management, leasing, maintenance, janitorial and security services.

The EDC portfolio consists of more than \$1 billion in real estate development projects, ranging from new construction to historic rehabilitation. Together with its affiliates, it owns, manages and controls more than 8.4 million square feet of office, retail, hotel, residential and other commercial spaces including more than 2 million square feet of office space in downtown Buffalo, 11 hotels with more under development, 925 mid- to high-end apartment units with an additional 500+ units currently under development, and more than 2 million square feet of retail space throughout Upstate New York and Western Pennsylvania. EDC is headquartered in Buffalo NY.

Question II-B: Project Description...

3139 W State Street is located at the Southeast corner of the W State Street and Desoto Lane intersection. The property was formerly occupied by the Desoto Motel, which was demolished in late 2015. In the Fall of 2018, we received municipal approval for the construction of the Harbor Freight retail store that currently occupies a portion of the site. The remaining vacant portion of the site was reserved for future development. We are now proposing to construct a 2-story 10-unit apartment building on that vacant portion at the rear of the site relative to W State Street. The building will total approximately 12,000 square feet in size and will include Eight (8) market-rate apartments and Two (2) attached townhome units.

Question II-B: Describe the reasons why the Agency's financial assistance is necessary...

The financial support be sought herein by the County of Cattaraugus IDA, is critical to the completion of the proposed project. The project is geared towards addressing the present shortage in available new housing in town, responding to a growing demand by the university and employment within local industry. The excessive escalation in costs of construction along with the cost of senior debt financing

resulting from the COVID 19 pandemic, far outweigh the rental rates that can reasonably be charged in this market for the multi-family product being proposed. With the help of the CCIDA through a multi-faceted inducement package including an exemption from Construction Sales Tax, Mortgage Recording Tax and Real Property Tax by way of a PILOT agreement, the project financials and resulting feasibility are improved. For EDC, this is a market is one in which we have a vested interest and want to see succeed through the presence of new investment and construction activity responding to the market needs that will help the community grow and flourish.

Question II-B: If the Applicant is unable to obtain financial assistance...

Without the requested financial assistance from the CCIDA, the project financials do not support us proceeding with the development. As stated above, the cost of construction far outweighs the ultimate rental rates that can be charged to support the proposed multi-family product. The successful completion of projects such as this, infusing private investment into the community and responding to market needs, are critical to the encouragement of further investment and economic development in the region.
